

NORA B52K1 Battery⁺ level simulator

NoraSim provides training for:

- Forward observers
- Nora gunners & commanders
- Gun position officers
- Battery command
- Regiment command

NORA B52K1 Battery⁺ level simulator (NoraSim) is computer based training system aimed at recruit level education, troop level conditioning and command level tactics simulations.

➤ NoraSim procedures

- Complete FOU training, 3 types of orienting procedures in virtual space, target acquisition with/without laser, ranging in both actual and simulated batteries
- INS based and classic orienting and firing from NORA guns
- All battery command post procedures
- All regiment command post procedures
- GRS operator procedures
- Training instructor creates missions and conditions of simulations

➤ Virtual environment features

- Geo-specific terrain, inspired by real world region
- 1600 square km of replicated actual terrain
- 100 square km of high realism virtual space, populated by adequate 3D objects
 - Trees
 - Houses
 - Buildings
 - Roads
 - Rivers
- 10+ types of destructible target units
 - Helicopters
 - Airplanes
 - Howitzers
 - Buildings
 - Vehicles
 - Infantry
- Configurable manmade and natural landmarks
- 5+ types of configurable premade target locations
 - Airfield
 - Helicopter base
 - Battery position
 - Dug in infantry
 - Forward HQ

- Weather effects
 - Clear day
 - Raining day
 - Fog day
 - Raining and fog day
 - Dusk / night
- Fire missions capability
 - HE shelling, immediate fuse
 - HE shelling, delayed fuse
 - HE shelling, airburst fuse
 - Smoke shelling
 - Smoke screen
 - Point target shelling
 - Linear target shelling
 - Mike target

➤ Simulator training advantages

- Heavily improved quality and efficiency of artillery command teams and operator personnel.
- Sharp reduction of training costs (ammunition, fuel, exposure to weather conditions).
- Dangerous situations training without risk to personnel and assets.
- Dramatically reduced impact on environment (roads, noise, air pollution, shelling, etc.).
- Ability to train anytime and anyplace under custom tailored conditions.
- Professional soldiers can maintain and perfect their skills without additional cost.
